Davico Exhaust Manifolds & Exhaust Manifold Kits

Many original equipment exhaust manifolds are in splash zones in the engine compartment or are subject to cracking due to extreme heat and cool down cycles. Our manifolds are aftermarket replacements from some of the same casting plants that produce them for the OE car makers. These are exact fit replacements that ship with gaskets included.

This catalog flyer is in buyers guide format but more applications are being added monthly. See our online catalog for the most up to date application data and digital pictures of the actual manifold replacements.

Many ship with gaskets and heat shields included.
